September 26, 2026

Dear Fidelity International Recruiting Team,

I am writing to apply for the Summer Internship 2027 (Investment Directing), Hong Kong in Hong Kong. I am a Master of Engineering student in Financial Engineering at Cornell University (graduating December 2027) and hold a First Class Honours BSc in Mathematics with a Computer Science minor from the University of Hong Kong, making this my penultimate summer and Hong Kong my home base.

Investment directing demands people who can connect investment content with implementation — my exact profile. At Rivermap I translated unstructured investment themes into auditable portfolio-relevant dimensions; at Dymon Asia I turned index rulebooks into actionable rebalancing forecasts (82.6% hit rate); at Nine Martingale I aligned factors, data and backtests tightly enough to add 0.02 IC.

Fidelity's long-horizon, research-deep culture in Hong Kong is where I want to develop as an investor who both models and decides.

I would welcome the opportunity to discuss how my background can contribute to your team, and I am available for interviews at any time. Thank you for your consideration.

Sincerely,

Jing Xiang Xu
