September 26, 2026

Dear Schroders Recruiting Team,

I am writing to apply for the Summer Internship 2027 (Investment / Quant), Hong Kong in Hong Kong. I am a Master of Engineering student in Financial Engineering at Cornell University (graduating December 2027) and hold a First Class Honours BSc in Mathematics with a Computer Science minor from the University of Hong Kong, making this my penultimate summer and Hong Kong my home base.

At Schroders the quant and fundamental traditions meet — and so do I. My Dymon Asia research (82.6% hit rate predicting Hang Seng rebalances) served discretionary portfolio decisions; my Rivermap work automated thematic screening for fundamental analysts; my HKU quant team ran a live systematic book.

As an HKU graduate based in Hong Kong with active Mandarin and English, I can support both the local franchise and mainland-oriented mandates from day one.

I would welcome the opportunity to discuss how my background can contribute to your team, and I am available for interviews at any time. Thank you for your consideration.

Sincerely,

Jing Xiang Xu
