September 26, 2026

Dear HSBC Recruiting Team,

I am writing to apply for the Global Banking & Markets Summer Internship 2027 in Hong Kong. I am a Master of Engineering student in Financial Engineering at Cornell University (graduating December 2027) and hold a First Class Honours BSc in Mathematics with a Computer Science minor from the University of Hong Kong, making this my penultimate summer and Hong Kong my home base.

As a Hong Kong-based mathematics graduate of HKU who has already worked in two Hong Kong financial firms (Dymon Asia, Rivermap), I bring both the quantitative craft — index rebalancing prediction with an 82.6% hit rate, factor backtesting, Monte Carlo risk models — and the local market fluency your APAC franchise is built on.

HSBC's pan-Asian footprint and its pivot toward technology-driven markets businesses make this the place where a bilingual quant with mainland and Hong Kong market experience adds the most value.

I would welcome the opportunity to discuss how my background can contribute to your team, and I am available for interviews at any time. Thank you for your consideration.

Sincerely,

Jing Xiang Xu
