September 26, 2026

Dear PIMCO Recruiting Team,

I am writing to apply for the APAC Summer Internship 2027, Hong Kong in Hong Kong. I am a Master of Engineering student in Financial Engineering at Cornell University (graduating December 2027) and hold a First Class Honours BSc in Mathematics with a Computer Science minor from the University of Hong Kong, making this my penultimate summer and Hong Kong my home base.

PIMCO's analytical, debate-driven culture suits how I work: I build evidence, then defend it. My Oxford research optimized liquidity policy under stochastic flows; my Dymon Asia work forecast index-driven flows with an 82.6% hit rate — flows that matter directly to bond index implementation and passive tracking in APAC credit and rates.

I am completing Cornell's financial engineering program precisely to add fixed-income and macro depth to an equities-heavy internship record, and Hong Kong is my home base for APAC coverage.

I would welcome the opportunity to discuss how my background can contribute to your team, and I am available for interviews at any time. Thank you for your consideration.

Sincerely,

Jing Xiang Xu
