September 26, 2026

Dear Ares Management Recruiting Team,

I am writing to apply for the Summer 2027 Internship Program, APAC in Hong Kong. I am a Master of Engineering student in Financial Engineering at Cornell University (graduating December 2027) and hold a First Class Honours BSc in Mathematics with a Computer Science minor from the University of Hong Kong, making this my penultimate summer and Hong Kong my home base.

Alternative managers live on information advantage in less-efficient markets — the environment where my research style wins. My Polymarket research at HKU found systematic mispricings above 3 percentage points and monetized them through a live order-book pipeline; my Dymon Asia work extracted a tradable edge (82.6% hit rate) from public index methodology alone.

Ares' APAC growth and credit heritage make Hong Kong the place I want to apply that edge-hunting instinct to private and alternative credit markets.

I would welcome the opportunity to discuss how my background can contribute to your team, and I am available for interviews at any time. Thank you for your consideration.

Sincerely,

Jing Xiang Xu
